FARM TO TABLE:
MORE THAN JUST BLING AT SAHANA VILLAS

If living in the lap of luxury is defined as a glamorous three-bedroom pool villa perfectly situated in the exclusive shopping & dining enclave of Seminyak's Oberoi, then yes, Sahana Villas appear to have it all. But, with the recent acquisition of their own organic coffee farm - located in the cool mountains of Bedugul – and a passion for providing family and friends with the best that Bali has to offer, the family-run Sahana Villas trumps the bling by adding a little authenticity to the glittering veneer of Bali's premier holiday hot spot. Imagine waking up after a long night at Hu'u Bar. The first thing on your mind is where to source that perfect double espresso without having to change out of your pajamas. The hum of a grinder and the rich bouquet of fresh roasted coffee envelop your senses. There is a soft knock at the bedroom door, and as your eyes adjust to the morning light, the only words you hear are: *your coffee is served.*
